Because so many people have asked for a specialized shot when in the trees, a "Punch Shot" is included. A "Punch Shot" is a low flying line drive shot that will go under trees. This shot can also be used to pitch and run onto the green. To use the punch shot, press "P" before hitting your ball. The letter "P" will appear next to the club number. It will automatically cancel itself after the shot. Since the shot requires some skill, it is a good idea to practice this shot at the driving range.
